EMAIL [mail@ph9.com](mailto:mail@ph9.com)

WEB [www.ph9.com](http://www.ph9.com)

## The role...

- Working on a variety of websites; both maintaining existing websites and building new ones from designs provided by our graphic designers.
- It will be mainly technical, but a keen eye for what looks good and attention to detail will be *essential*.
- Handling technical support requests from clients and resolving technical queries they may have.

## Required skills...

This position is for a web developer with experience in php, MySQL, HTML and javascript.

A minimum of 1 years experience (but ideally 3 to 5+ years) is required in:-

- php & MySQL
- Javascript, jQuery, AJAX
- HTML & CSS
- Object orientated programming in php
- Building websites from designs provided in Adobe Photoshop, Fireworks and Illustrator

## Beneficial skills...

Beneficial, but not essential.

- Logging into Linux based servers using SSH and performing basic administration tasks and maintenance
- Design skills in Adobe Photoshop, Illustrator and Fireworks
- Experience working with third party APIs using Rest, OAuth, JSON, XML etc
- Bash scripting
- Python
- Mac and Windows/PC experience (we use Macs)
- The following won't be required often, but would be beneficial:-
  - Classic ASP 3.0 and SQL Server
  - Knowledge of Windows Server 2008 and IIS

# Why work for ph9

## 1) You get great toys to play with

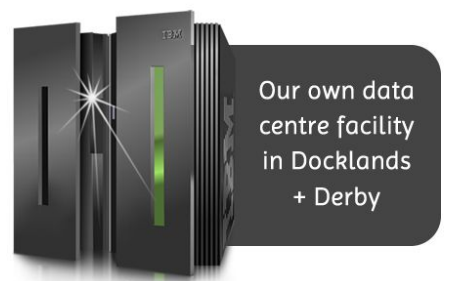

- a) Apple Macs with MULTISCREEN setups, i7 CPUs, Solid State Drives (SSD) and 16gb RAM
- b) Software suite including Adobe Creative Cloud, Aptana / Sublime etc. Fully licenced.
- c) A rack cabinet of test and dev servers in our offices and our own data centre facility

## 2) You don't have to wear a suit

Suits are for people trying to sell something. Not web developers.  
Feeling comfortable at work is important. Ties suck.

## 3) You can use headphones and listen to music

Listening to music whilst working can help you be more productive. It also makes you happier.

## 4) Our offices are awesome

You'd be working in the buzzing Friar Gate Studios in Derby; a dedicated building for creative and technical businesses with a great vibe

We have a cafe downstairs with amazing cake and coffee

Plus we're walking distance to Derby city centre, the intu shopping centre, a Tesco, and some great bars and restaurants

## About us...

### Our location and history

We are website design and software development agency called ph9 based in Friar Gate Studios, Derby, which is a building occupying only creative and technical people. It is arguably one of the best places for creative and technical people to work in the UK. We're based on the first floor.

We've been established for 10 years and as well as ph9 web design ([www.ph9.com](http://www.ph9.com)), we've also established sub-brands of [www.AntiquesWebDesign.com](http://www.AntiquesWebDesign.com) and [www.WebDesignforShops.com](http://www.WebDesignforShops.com)

We build websites for a range of clients ranging from Antiques Dealers, Auctioneers, to Shops, Charities, Celebrities, Car Garages and more.

### Our ethos and culture

We passionately believe in:-

- Making the web and computers work for the people who use them
- The web and computers should be easy to use, and usable by everyone
- In good design; making things look pretty, but intuitive too

*We have our own coding standard, our own CRM, our own development platform, and are always striving to be the best at what we do.*

*... join us and work with us to evolve even further!*
